CONFERENCE MANAGEMENT SOFTWARE

# Exhibitor Module

## Exhibitor Management Made Easy

Whether your show has 5 exhibitors or 500, Attendee Interactive can make managing your exhibitors the least of your worries. Every show is different, and every exhibitor has special requirements, so we have built a solution that can accommodate virtually every need, desire, demand, and wish. You will save time, money, and your sanity. That is the power of Attendee Interactive!

Attendee Interactive provides personal online access to exhibitors participating in an event. With secured access to the “Exhibitors Only” section of the website, exhibitors are able to manage and edit their own profile and submit required forms and materials. We will give your exhibitor interface a customized look that matches your own branding and marketing materials.

- Purchase booth space online

## Client Benefits

- Allow exhibitors to update and manage their own profiles
- Create required electronic forms and place them in exhibitors ready rooms
- Built-in communication tools
- Create categories to be used for searching for exhibitors
- Collect evaluations and surveys
- Post exhibitors profile online
- Control staff allotments
- Collect exhibitor contracts and payments online.
- Track the number of hits for each exhibitor
- Email tools

## Exhibitor Module

Are you spending too much time entering data, tracking down contracts and company descriptions and not enough time selling booth space? If you answered yes, then AI's Exhibitor Module is the perfect tool for you. Our Exhibitor Module was built to enable exhibitors to handle many of the tasks that exhibits managers have had to do for years. Imagine having giving your exhibitors a portal to update their own company profile, upload corporate brochures or other product literature, complete required forms in an electronic format and registering their booth staff right from their own ready room.

This allows you more time to reach out to potentially new exhibitors and spending more time managing the other aspects of putting on an exhibition.

In addition to our Exhibitor Module, AI has other modules such as our Fast Match system that integrates nicely with this module to allow attendees and exhibitors to search for and schedule meetings with other conference participants.
